In this survey you will be asked questions about your personal contact network. We estimate that it will take around 30 minutes to complete this survey, though for some people it may take a bit longer.

This survey is very similar to surveys you have taken in the past, and its purpose is to obtain a description of how your social network has changed. This is important information that we will need to understand how social networks evolve during college.

All information that you provide to us through this survey is confidential. In all reports and presentations individuals will not be identifiable. Also, no one will see your answers except the researchers involved in the NetSense project.

When taking the survey you can return to previous pages by clicking the "Previous" button at the bottom of a page. Please do not use your browsers "Back" button.

There are 44 questions in this survey

In this section you will be asked about your relationship with each of the contact people on your list.

4 [Closeness]Please indicate the option that best describes your relationship with each person.

Are you especially close in the sense that this is one of your closest personal contacts,

or are you merely close, in the sense that you enjoy the person, but don’t count him or her among your closest personal contacts,

or are you less than close in the sense that you don’t mind interacting with the person, but you have no wish to develop a friendship,

or are you distant in the sense that you really don’t enjoy spending time with the person unless it is necessary?

Please choose the appropriate response for each item:

Information on your contacts

In this section you will be asked to provide information about each of your contacts.

31 [Phone.num.email]

In the next question, we will ask for several pieces of confidential information about your existing contacts. Specifically, we will be asking for the phone numbers and email addresses that you use to communicate with those contacts. We are asking for this information in order to measure your level of communication activity with these people.

As you will recall, we are capturing communication activity from your smart-phone containing the numbers and email addresses of the people that you speak with, email and text. By linking the information you provide, we will be able to measure the extent to which you communicate with each of these persons.

It is important to note that we will not contact any of your contacts. All information will be kept strictly confidential on our secure servers that are only accessible by researchers on the NetSense project team.
